Subject: SF Stakeholder Study Group Meeting 7/26/05

After further technical analysis the ISO has decided to defer its presentation of the preferred transmission solution for maintaining long-term load-serving capability within the San Francisco Peninsula to the ISO Board of Governors until its September meeting. In consideration of the comments we have received, we will still have the SFSSG meeting on Tuesday and will continue to work with the stakeholders to present the preferred alternative, answer questions and collect comments. Due to this change in scheduling, we will post the Board memo near the end of August.

The stakeholder meeting has been scheduled for:

Date: Tuesday, July 26, 2005
Time: 10:00 a.m. - 1:00 p.m.
Place: City Hall, Room 201
1 Dr. Carlton B. Goodlett Pl.
San Francisco

Please contact Julie Gill (jgill@caiso.com) or Gary DeShazo (gdeshazo@caiso.com) if you have any questions regarding this meeting.

Importance: High

San Francisco Stakeholder Study Group:

A stakeholder meeting has been scheduled as follows:

Date: Tuesday, July 26, 2005
Time: 10:00 a.m. - 1:00 p.m.
Place: City Hall, Room 201
1 Dr. Carlton B. Goodlett Pl.
San Francisco

The purpose of this meeting is to present the preferred transmission solution for maintaining long-term load-serving capability within the San Francisco Peninsula and therefore completing Phase 2 of the SFSSG. We will be presenting to the ISO Board of Governors the following day and requesting their approval of this preferred transmission solution. We apologize for the short notice, but we believe it is imperative to meet one final time with the stakeholders to present the preferred alternative, answer questions and collect comments. We will notify you when the completed memo to the Board is posted on the ISO website.

Please contact Julie Gill (jgill@caiso.com) or Gary DeShazo (gdeshazo@caiso.com) if you have any questions regarding this meeting.

Thank you.
