

## **Summary of Revisions to Proposed Language LVTRR Tariff Amendment – August 14, 2006**

**The comments of SCE and PG&E have been posted on the CAISO website along with the additional revisions to proposed Tariff provisions as follows:**

- SCE's comments: <http://www.caiso.com/1852/1852add63ed70.pdf>
- PG&E's comments: <http://www.caiso.com/1852/1852b28350d50.pdf>
- Revised CAISO Tariff provisions (posted August 15):  
<http://www.caiso.com/1853/18536fda4a900.pdf>

**For ease of reference the changes made in the revised version of the proposed CAISO Tariff provisions posted on August 15 compared to the previous version posted on August 8 are shown as additional "redline" with yellow shading in the August 15 version. These new changes are summarized below:**

- Section 26.1 has been further revised to reflect the revisions proposed in PG&E's most recent comments -- plus the addition of references to the opportunity for the affected Participating TOs to enter into a separate agreement for the assessment and collection of the subject Low Voltage Access Charges, as discussed in the August 14 stakeholder conference call. In addition, a sentence rendered redundant by the revisions proposed by PG&E has been deleted.
- The definitions of "Transmission Revenue Credit" and "TRBA (Transmission Revenue Balancing Account)" have been revised to reflect the revisions proposed in PG&E's most recent comments, which approach is intended also to address SCE's comments regarding these same definitions.
- Section 13.2 of Schedule 3 of Appendix F has been revised to delete the first sentence of the second paragraph as proposed in SCE's comments.
- Sections 13.2 and 13.4 of Schedule 3 of Appendix F have been revised to add references to the opportunity for the affected Participating TOs to enter into a separate agreement for the assessment and collection of the subject Low Voltage Access Charges, consistent with the discussion of this matter in the August 14 stakeholder conference call.
